## PRESS

"With each release bubbling with more energy than the last, Birdee's steep upward trajectory has gone unmatched by any of his esteemed colleagues in the field over the last 12 months. His extraordinary work rate has been a blessing to the Nu Disco community leading to 13 high-caliber releases hitting our Nu Disco top 200, on heavy-weight labels Big Love, Nervous, Tinted, Midnight Riot and more. Moving up an impressive 10 places from #11 last year, standout tracks include 'Midas Touch' and 'Push (In the Bush)' remixes, alongside two additions to the Re-Loved 'Love Cuts' series that demonstrate a masterclass in repurposing classic disco sounds for modern dancefloors with Chic-style grooves, sizzling synths and a strong boogie direction."

— **Traxsource**

"Italian producer Birdee tends to lock himself away in the studio for days on end. Working on idea after idea, his feverish creative spells result in some intoxicating disco-infused releases"

— **Clash Magazine**

"It was no surprise last week to see Birdee named as the Traxsource Nu Disco Best Selling Artist of 2021 and to follow that up by landing at No 7 in their Overall Best Selling Artists list. We've been big fans of Birdee for a good while now. He's an artist with that rare ability to conjure up original tracks and remixes are both packed with feel good warmth and dancefloor energy. We booked Birdee back in 2020 just before the pandemic hit for one of our Le Visiteur Live events and having seen him DJ in the flesh it's clear that his productions are an extension of the live DJ style. He's a DJ who very much knows how to move a club into raptures."

— **Le Visiteur**

"Every time we cross paths with Birdee, he reminds us of how addicting those tunes are. Taking his fresh and funky good vibes from LA to London, Marcello De Angelis has propelled his project Birdee to the front of nu disco and dance.

Incorporating a chic, sophisticated touch to a classic funk-inspired sound, Birdee consistently delivers original tracks, remixes, and EPs that are impossible to resist."

— **Earmilk**

## BIO

By no means a newcomer - but a fresh face on the disco scene, in the last few years Birdee has managed to carve out quite a path for himself, remixing luminaries such as Aeroplane and Michael Gray, collaborating with legendary singers Barbara Tucker and Angela Johnson, and releasing on Glitterbox, Big Love and Nervous - amongst other labels.

His music is supported by a veritable who's who of dance music: Groove Armada, Purple Disco Machine, Mark Knight and Horse Meat Disco are all fans, while radio support has also been outstanding - as a matter of fact, Pete Tong recently opened his BBC Radio 1 show with Birdee's breakout single Start The Weekend.

As a perfect send off to an incredibly busy 2021, Birdee was crowned Number 1 Nu Disco Artist of the year on Traxsource, whilst also scoring an impressive Number 7 position in the overall category.
