## PRESS

"Get ready for some vibes. LA producer Eric Sharp and Pittsburgh's Tenova team up to put their touch on "The Truth" by Mansions on the Moon. The track was already blessed with this breezy style of synth pop suited for all your summertime pleasures. Now, Eric Sharp and Tenova step in to kick things up a notch, creating this silky chic, sophisticated house remix that will please all our dance floor friends."

— EARMILK

"If you have something to do today, then you better buckle yourself in before you press play on this tune right here. Now, if you don't lock yourself in while you listen, you are going to float up to a groovetastic party on a cloud watching a beautiful summer sunset. Eric Sharp & Tenova really outdid themselves on this remix."

— Magnetic Magazine

"If you love Mansions On The Moon, you're bound to love Eric Sharp and Tenova's edit of the band's most popular original track. With slightly accelerated vocals and additional percussion elements, The Truth makes an epic return right in time for summer."

— LessThan3

"Now this is music to book holidays to. Mansions on the Moon already had the house groove down, and now Eric Sharp and Tenova have got involved to turn "The Truth" into a sunset classic."

— Hunger TV

## BIO

With fast-growing support from top-tier artists, an incredibly loyal fanbase, and a constant desire to push the envelope, Tenova is one to watch in 2015. Having the experience of a traditionally trained musician and growing up as a child of underground dance culture, the young artist has achieved an effortless grasp on unique, intricate music production and maddeningly technical DJ sets.

Launching his career in 2012, Tenova has been quick to rise among the ranks of his peers in his home state of Pennsylvania, garnering an impressive list of bookings, world class club residencies, releases, and artist support. Tenova takes an intuitive view of his role as a DJ, a musician, and -- by his own standards -- as a performer. Although passionate about House music, he is well versed as a DJ within alternative sub genres of EDM, and he uses his extensive collection to bring about a proper vibe to any dance floor fortunate enough to have him at the controls.

It has taken little time for others to notice the noise Tenova continues to generate, with features on media outlets such as THUMP, Magnetic Magazine, XLR8R, Earmilk and Elektro Daily who has labeled his work as "reminiscent of Dusky," and referenced him as being "...a yet-undiscovered jewel of a young producer."

All things considered, it is no wonder as to why Tenova continually receives support on his ever growing catalogue of releases from A-list talent. His tracks have been supported by Kaskade, 16 Bit Lolitas, Mike Mago, David Puentez, M.I.K.E., and many more.

On the performance side, Tenova is no stranger to rocking a crowd, continually pushing the boundaries of his performances. In addition to holding residencies at two of his region's most prestigious nightclubs, Tilden and Static Nightclub, Tenova has performed with: Laidback Luke, R3HAB, Gregor Salto, Bingo Players, Will Sparks, Carnage, The Bloody Beetroots, Kill The Noise, Brillz, GTA, Worthy, 3LAU, Prok & Fitch, and HookNSling, just to name a few. Having recently made his festival debut at *Life in Color*, he is eager to continue to advance his unparalleled growth as an artist.

Tenova has high aspirations for his future, aiming to further his skills with each passing day and to continue to strive for nothing short of technical precision, boundless creativity and reckless innovation, one track at a time!
